UNITED STATES SIGNAL CORPS

OWEN M. HAMILTON
LEXINGTON, KY.

Weds. Evening

Dear Jim,

I hope by now that you are up on your feet & around again.

Since I wrote you last I am getting a promotion. Next Sunday I am starting to school out at Avon & Frequency Modulation. I also am going to get a small increase in salary, putting me up to \$1800 a year. The only bad feature is that I will just drop it about 3 weeks at which time I will go on to the army. I sure am thrilled about it as I will be getting training as a specialist. As it has been, I have just been studying radio as a whole, but now I will have a chance to specialize in one certain field. Freq. Mod. is the newest way of transmitting radio & so it may be helpful after the war. I am either luckier than hell or maybe I know a little something as they have pulled quite a few out and put them on in the army so I feel pretty good about the whole thing.

I am going to plan to come home the 12th of March as Paul will be home

than I want to see him before he
gets off. Then the following month I
guess I will be going in Jim.

Well from this is another short
letter but I can't think of a lot more
to say. Tell Morgan Hello and
I will see you next month. I will
let you know how I get along on
my new job. By the way the hours
aren't so good as I start to school
on Sunday after noon at 5:30 P.M.
I work to 2:00 A.M.

Love,
Owen
