Dear Jesse,

It is about 6 o'clock and I have already made my bed, swept & mopped under my bunk and am now waiting to go eat. As usual, things are the same here and it is hard to sit down and write a letter as nothing comes up worth mentioning. I have nine more school days and I will sure be glad when they are over as I am getting tired of going to school. As I look back, I see that I have been in the Army's Signal Corps Schools for over a year now. Time sure goes by in a hurry now.

I saw a good picture last night, *Moscow to Moscow*. Has it been over at home yet? If it is not all propaganda, Russia may not be such a bad place according to Am. Davis.

About the mail, I don't know what

To say, I get a few letters but it doesn't
seem like I get as much as I did in
basin.

Shall just will close for
now and write tomorrow or next
day. Thanks a lot for the newspaper
clippings as I enjoy reading what
you on at home.

Yours
Owen
