Dear Jane,

Received your card today, Thanks a lot.

Well I am back in the old route again and it sure is hard after becoming accustomed to the good a living again. It took me about 24 hours to get down here but I spent a little time in Montgomery as I didn't want to come in to soon. I stopped at the Masonic Temple in Montgomery and got all the dope on the Dotha Lodge and wired Horton right away.

Jane I want to thank you and Morgan for the good times you showed me while I was home. At least I will have a good time to look back on while there isn't much hope for the future. I thank the hardest thing to come back to, is the army cooking but I guess even that could be a lot worse.

By the way, two of the fellows here in the barracks are Mason and they want to go in with me when I get my 3rd degree so that will make it a lot easier going into

a strange place. I sure am glad that I got those degrees in because I think it will sure be a benefit to me to be a Mason.

Has Mary ever heard anything about my getting the last degree down here?

Well June I must close for now as it is getting late I want to get some sleep to night so I can rise and shine early in the morning. Hoping you are all well and let me hear from you soon & often as my morale could be higher. Right now it is down to my ankles.

Love
Quinn
