

Oahu

Oct. 24, 1944

Dear June,

I received the letter from you today in which you requested a little information that I am unable to give you now. We will have to wait till I come home to put that in the book.

You've heard of the house that Jack built, well I am now living in the house that I built (or at least helped build.) As soon as I get a chance, I want to take some pictures and send ~~you~~ them to you. Also I want to take a few pictures of the airplane.

Speaking of airplane, I went for a plane ride the other day. The island is really something to see from the air. It's really is wonderful to be up there and look down on everything.

I haven't been in to Honolulu lately and want to get in there this weekend if I have the money. It seems as though money is about the biggest draw there is

on the island.

When you see Bob again,
congratulate him for me.

Well Gene I haven't much to
say to night so will close for now.
Write whenever you can as I always
enjoy hearing from you. Tell Mary
Hello.

Your Brother
Alan
