Dear Mom, Pop & Virginia,

Received the letter saying that you are all back home and everyone's doing O. K. So there is a little more work connected to a baby than you thought. Does she cry much or keep you up all hours of the night? By the way, what does Mac think of Dinky? I guess that he is a little jealous not getting as much attention as he's used to.

I can see that you all don't know what a year overseas can do to a fellow when you all say that Mary isn't my type. The way I feel now, any thing is my type as long as it whos dressed. Those pictures weren't away to good though as she isn't bad at all. At least for our her, she damn good. The Wams have a nice place to dance so it really a lot of fun to go over there.

Today I spent the whole day just cleaning up around the tent and everything. After I let things pile up for about a week or two I have to have a new deal so I can find my way around. Every time I straighten my foot locker

I made a resolution that I am going to keep it
straight but about the second day, its in the
same old shape.

Well its getting late and I want to
write Mom yet tonight so will close for now.
Write whenever you can and let me know
how Ginny is doing. Have you taken any
pictures yet?

Joe
Owen.
