

CAMP
CROWDER
MISSOURI

Tues. Evening

Dear Sir,

About this school deal, ~~can~~ it ceases to be a joke to me any more as going to the same school over and over gets to be a little boring. I have been checking where else they have F.M. Schools in the country so I will have some idea as to where I will go when I finish here. I don't know if this speaks good or bad for me going to the same school. It may be that they think I am so dumb that I will have to go to the same school 3 or 4 times before I can get it.

It sure looks like a nice month vacation as I have a lot of walking around the place I want to do. It is just like being at some summer resort with all the beautiful buildings around. They have a dance this Thurs. at the Armament building so I think I will go over and see what kind of women they have in this state. If they are as nice here as they were in Pittsburg I think I would be willing to stay here for the duration.

There aren't any towns around here worth going to so I think I will stay pretty close to camp while I am here.

Mother said something about me getting into the Masses. I sure would like that as I would like to be in some fraternal organization.

I sure want to get some pictures of this place as I want you all to see them when I get home. Tell Mager that I saw ~~one~~ of these big cannons they carry on a four wheel trailer affair, captured from the Germans in Africa. It was all camouflaged and pretty well shot up after we got through shelling it. This is one of the biggest, if not the biggest Artillery Camp in the U. S. and they really have a large assortment of guns rolling around.

You can hear them firing them all day but that don't bother me as long as it isn't in my direct in.

Well Jane, will close for now and be sure and see that Helen doesn't teach this fall. After all it would be hard to live on such a mere salary as a teacher makes only I would think I was a million air off I was making that much.

Love
Cora.
