ABOUT THE COVER ... Summer '77 brought students of all ages and interests to the ISUE campus for noncredit programs. Some of the most eager students were those caught by the camera and pictured on our cover — youngsters who enrolled in courses for collectors of stamps, beer cans, and rocks; in activity classes such as tennis and gymnastics; and those who participated with their family in astronomy or nature walks. The noncredit courses were offered through the Office of Continuing Education.

8600 UNIVERSITY BOULEVARD

8600 University Boulevard is published Winter, Spring, Summer, and Fall by the Office of the President, Indiana State University Evansville, Evansville, Indiana 47712. Second class postage paid at Evansville, Indiana. Please send form 3579 to the Office of the President, ISUE, 8600 University Boulevard, Evansville, Indiana 47712.

An early 1800s pioneer home on the campus of Indiana State University Evansville was dedicated June 1 in memory of Paul Grimes, ISUE's first physical plant superintendent.

An American Revolution Bicentennial project, the Paul Grimes Log Haus has been renovated by members of the Westwood Garden Club. Preserved as an early community heritage in a natural area, the facility will be used for outdoor education and recreation for youth groups and campus organizations.

The two-story log structure was moved to the area south of the Westwood Lodge on the ISUE campus from the Charles E. and Clarence T. Kuebler family property in Posey County.

The home was taken from 40 acres originally deeded to John Day on June 2, 1836. It was deeded Jan. 27, 1869, to John Orth, who sold it to Edward J. and Edith L. Orth Kuebler in 1924.

TWO GRANTS FUND CONSUMER EDUCATION PROJECT FOR SOUTHWESTERN INDIANA

Two separate grants totaling \$33,710 have been awarded to Indiana State University Evansville for a comprehensive consumer education project in an eight county region of Southwestern Indiana. Included are Gibson, Pike, Dubois, Perry, Spencer, Warrick, Vanderburgh, and Posey Counties.

The \$33,710 figure includes \$20,124 in Title I funds awarded by the Indiana Commission on Higher education and \$13,586 in Title III funds awarded by the Southwestern Indiana Regional Council on Aging.

The project, which will be administered by the ISUE Office of Continuing Education, will concentrate on in-depth training of paraprofessionals, professionals, and other employees and volunteer workers in social service agencies. These individuals will be trained to provide consumer education to their clients, both on a one-to-one basis and, where appropriate, in organized group sessions.

Initial planning for the project proposal included input from representatives of the Community Action Program of Evansville (CAPE), Vanderburgh County Welfare Department, Southwestern Indiana Regional Council on Aging, The Visiting Nurses Association of Southwestern Indiana, Catholic Charities Bureau of the Diocese of Evansville, and Vanderburgh County Cooperative Extension Service.

According to project director, Sylvia Weinzapfel, Assistant Director of Continuing Education and Director of Women's Programs at ISUE, the ultimate goal of the project is to enable low income and elderly adults in the eight-county region to maxi-

mize their incomes through wise use of the fiscal resources and the social services available to them.

"The purpose of the project is to provide consumer education training from which these consumers will be the indirect, but ultimate, benefactors," Mrs. Weinzapfel explained.

The project is designed to include a range of educational experiences organized in ten learning phases. While the central thrust of the project will be consumer education, training in basic human relations skills and communications techniques will be included. The social service agency representatives will learn essential skills in communications, nutrition, money management and budgeting, legal information for consumers, and consumer credit. They also will select two of five other phases of the program including such areas as special consumer problems of the elderly, supportive services and educational and job opportunities, wills and estate planning, consumer concerns of the woman alone, and interviewing skills.

The in-service training in consumer education will be offered in five phases over the next year beginning September 1, 1977 at ISUE.

A workshop designed to give selected regional social service agency and volunteer personnel in-depth training in advocacy of consumer rights of senior citizens will be held at the conclusion of the project in September 1978.

Further information on registration for the seminar may be obtained from the Office of Continuing Education at ISUE, 464-1863.

MRS. WALDEN PROMOTED TO DIRECTOR OF LIBRARIES

Mrs. Bette J. Walden has been promoted to Director of Library Services at Indiana State University Evansville, effective July 1, 1977.

Mrs. Walden earned a baccalaureate degree in English and a master's degree in library science from Indiana University (Bloomington). While at I.U., she was elected to membership in Phi Beta Kappa.

Before moving to Evansville, Mrs. Walden was a high school teacher for 2 years. She joined Indiana State University Evansville in September 1971 as a reference librarian, was later made assistant professor of library

science, and in 1976 was named acting director of library services.

At ISUE, she has served as secretary of the ISUE chapter of the American Association of University Professors and on its executive board. Currently, Mrs. Walden is chairperson of the Evansville Area Health Science Consortium.

She is a member of Beta Phi Mu, the Indiana Library Association and the American Library Association. She is married to Bill Walden, a scientist at Mead Johnson Company.

1975 GRADUATE NAMED A.B.W.A. WOMAN OF YEAR

A 1975 Indiana State University Evansville education graduate, Eva Michaels, was named "Woman of the Year" by the Evansville Charter Chapter of the American Business Women's Association. Mrs. Michaels, a North High School teacher, was selected for the honor based on her achievements in the field of business, education, and participation in the association and in community activities.

She currently serves as president of the Evansville Charter Chapter of ABWA. She is

an active member of Grace Baptist Church; a member of the Evansville Teacher's Association, serving as chairman of the occupational training and homemaking committee; a member of Indiana State Teachers' Association and the National Education Association; and a member of the Evansville Service League, a division of the Boys Club.

Mrs. Michaels and her husband Charles, A trust officer at National City Bank have a 19 year old daughter. They reside at 5201 Sherbrooke in Evansville.

A NEW FORCE ON CAMPUS

With the precision of a finely-tuned machine, ISUE's Student Union Board moved through the past year offering an unprecedented number and variety of activities for students.

SUB, as it is known on campus, was created in 1970 and is the major programming unit in the campus community, offering a wide array of events in the fields of music, media, education, community relations, and the arts. The organization describes its members as "students who share the same goal of working together toward better programming on campus and learning through it."

And learn they do — through their work as officers or chairpersons of the twelve committees that compose SUB. Each event or activity of SUB has a committee to handle details — Films and Video Tapes,

Recreation and Travel, Concerts and Dances, Arts, Lectures, Eagle Gran Prix, Homecoming, Halloween Madness, Spring Week, Coffeeshouse and Lounge Series, Public Relations, and Historian — and each committee is composed of some of the busiest students on campus.

The chairpersons of these committees and the officers of SUB, including a president, vice president, secretary-treasurer, make up the executive committee which directs the year's activities.

Rose Zigenfus, a senior communications major who has just ended her year as president of the organization, explained that during her tenure as president, the SUB was able to do more because of a larger budget made possible when the student activity fee was raised by \$1.00 per credit hour per student. This increase provided for more

services to students, not only in Student Union Board programming, but also in other areas. The primary emphasis in the last year was to increase the number of events offered and student participation in them. Instead of one concert, they offered several; they prepared a slide presentation for new students in hopes of encouraging more students to become involved in their activities and in their committees. The number of Lounge Series events more than doubled over the year before and offered much more variety.

Looking at her year as president in perspective, Rose thinks the greatest success was in the awareness that was created by SUB throughout the University. "Our credibility within the University has increased. Making students, faculty, and others aware of what we are doing and why we are here was one of the goals I had set. I think we

achieved that."

Also, Rose was gratified that the number of students who actively participated in the programming was increased. "We had such good participation at events like Homecoming, where the largest crowd ever attended the game and dance afterward; Halloween Madness; and the David L. Rice Day and the Eagle Gran Prix race," Rose pointed out.

The Eagle Gran Prix bicycle race was held on a weekday which Student Government proclaimed "David L. Rice Day" in honor of ISUE's President. Free hamburgers, grilled by division chairmen and the vice presidents, were served along with complimentary soft drinks to all persons in attendance at the race. President Rice received a plaque and a proclamation from the Student Government organization.

Rose Zigenfus presides over a weekly SUB meeting; Dave Broderhausen and Mark Dwyer contribute to discussion.

Preparing for a SUB performance

The Eagle Grand Prix

Halloween Madness

Popular Hillside Concerts

Do the students who give 20-plus hours a week to the Student Union Board activities feel their energies are well spent? Bill Muhleinbein, assistant to the SUB president last year, thinks so: "The skills we are learning are skills we will use — management skills, supervisory skills, good practical experience."

Mark Dwyer, chairperson of the Public Relations Committee last year and this year, says he enjoys his work with the Public Relations Committee. "It gives me a challenge to respond to problems. I enjoy that part of it," the junior communications major said.

Dave Broderhausen, an accounting major, was Vice President last year and will be SUB president this coming year. The president is the only person in SUB who receives any type of compensation — a partial fee waiver. But, for the number of hours the president

must spend to keep the committees working and the events on schedule, it is a small amount. For, along with the SUB activities, the president of SUB is automatically appointed to other campus committees in advisory positions. "This takes an enormous amount of time," Rose testifies.

Events already have been scheduled for the coming academic year, and a calendar of events is being prepared by SUB for mass mailing to all students enrolled at ISUE this fall. It appears that the coming year will be filled with an even greater variety of interesting events to meet the social as well as the educational needs of ISUE's 3,000 students.

DO SOMETHING FOR HUMANITY, CLIFT TELLS GRADUATES

ISUE graduates received their diploma and a hearty handshake from President David Rice.

By
Karen Walker

Dr. Virgil A. Clift, Commencement Speaker

In his Commencement address, Dr. Virgil A. Clift instructed graduates of the Class of 1977 to follow the advice of Horace Mann who said, "Be ashamed to die until you have done something for humanity."

Dr. Clift, Distinguished Professor of Education at the University of Nebraska-Omaha, delivered his gentle admonitions to 407 graduates before faculty, parents, and friends at ISUE's seventh Commencement held in Vanderburgh Auditorium May 7.

Dr. Clift continued his remarks by suggesting the graduates do best what many are content to do well. He promised "If you do best what the multitudes are content to do well, you will never have a money problem, you will never need to worry about reserving a footnote in history for yourself."

In conclusion he offered Ralph Waldo Emerson's recipe for success: "Laugh often and much. Win the respect of intelligent people and the affection of children. Earn the appreciation of honest critics and endure the betrayal of false friends. Appreciate beauty. Find the best in others, not the worst. Leave the world a bit better whether by a healthy child, a garden patch, or a redeemed social condition. To know that

one life has breathed easier because you lived . . . that is to have succeeded."

Dr. Clift was one of four persons with ties to Southern Indiana who received honorary degrees at the 1977 commencement. A native of Princeton, Dr. Clift is editor of a major publication, *Encyclopedia of Black America*, described as "the most comprehensive and extensive single volume ever completed on black people." Dr. Clift earned his master's degree at Indiana State University in 1939, and completed the doctorate at Ohio State in 1944. Dr. Clift was recognized for his contributions in urban education and in the education of minorities throughout the world.

Other honorary degree recipients were Alexander L. Leich, Richard M. Brumfield, and Arlene Bronstein.

Mr. Leich, a lifetime resident of Evansville, was cited for his endeavors to promote fine arts. Receiving an honorary Doctor of Humanities degree, he was commended for his achievements as a businessman and community leader. The grandson of Charles Leich, the founder of the Leich Wholesale Druggist Firm, Alex Leich started work in the family firm upon his graduation from

Above ▲ *The Mid-America Singers performed at Commencement, under the direction of Dr. Jon Carlson.*

from 1948 until his recent retirement. Harvard University in 1927. He served as vice-president and treasurer of the Company

The honorary Doctor of Laws degree was awarded to Richard M. Brumfield of Princeton and Arlene Bronstein of Evansville. Mr. Brumfield is the retired president and founder of Potter & Brumfield, producers of electrical mechanical relays and electrical switching devices. A mechanical engineering graduate of Purdue University, he has served his University as a member of the Board of Trustees since 1963.

A resident of Evansville for almost four decades, Mrs. Bronstein is president of Southern Independent Oil and Refining Company, a business interest she and her husband Sol shared before his death. Her business ability was recognized in 1973 when National City Bank named her to their board of directors, and she became the first woman elected a director of the bank in its 123-year history. Mrs. Bronstein is also a member of the board of directors of the

Evansville Museum and is noted as one of the museum's most loyal supporters and contributors.

Following the presentation of honorary degrees, 407 students were recognized for completing degree requirements during the 1977 academic year, and another milestone was reached for ISUE as the first baccalaureate degrees in allied health science and the first associate degrees in engineering technology were awarded. The class included 129 business students, 59 education students, 47 humanities students, 41 science/mathematics students, 74 social science students and four allied health students receiving the baccalaureate degree.

Associate degrees were awarded to 31 students in allied health, five in engineering technology, 15 in business, and two in social science.

Debra Samples of Evansville graduated Summa Cum Laude, the highest academic honor given in the class. Mrs. Samples was an elementary education major.

the GRADUATE ROUNDUP

The Graduate Round-Up features alumni of Indiana State University Evansville who are making noteworthy contributions in their respective fields. Information is gleaned from the Alumni Information Card, friends of alumni, and the Alumni Association officers and Executive Board. Alumni are invited and encouraged to record their accomplishments on the Alumni Information Card (found on the next page) and return it to the ISUE Office of Alumni Affairs.

1971

PAUL L. GABLE was recently married to the former Melanie L. Hamilton. Paul, who graduated with a B.S. in Chemistry, is presently employed as a chemist by the Food and Drug Administration in Cincinnati.

1972

LARRY FARMER was recently married to the former Cynthia Schlusemeyer. Larry is employed with Bernardin Bottle Cap Home Canning division as regional sales manager.

1973

GAYLE A. BUOKER was recently married to James Springer. Gayle is a dental hygienist in Muncie and resides in Anderson.

THOMAS F. GIORGIO was recently married to the former Judith Thomas. Tom majored in economics and marketing at ISUE. He is working on his doctorate in dentistry.

JOHN HEARD, a business management major, was recently married to the former Joyce Scheller. John is employed as a supervisor of sales service at Cresline.

ROIANN LANE, a business education major, has accepted a teaching position with the Breckinridge Job Corps Center in Morganfield, Kentucky.

DAVID LUTZ, a marketing major, has accepted a position with Atwell, Vogel & Sterling, Inc., in the audit and inspection loss control division in Downers Grove, Illinois.

STEVEN WINGERT was recently married to the former Katherine Kayser. Steve majored in management and is presently employed at St. Mary's Hospital.

1974

PAMELA BROOKS was recently married to David Stewart. Pam majored in secretarial administration and is employed at Hamilton's Golf Course as secretary.

RHONDA ENDSLEY was recently married to Gary Kidd. Rhonda is a senior paralegal student and substitute teacher in Evansville. Gary is an accountant for Alcoa.

PAMELA FITZGERALD was recently married to Steven Baker. Pam majored in dental hygiene, and is employed with Dr. Greif & Dr. Luebbe.

LISA KOESTER was recently married to Thomas Huck. Lisa majored in English and is presently employed at the Indiana State Employment Office.

TIM McDANIEL, a political science major, was recently married to the former Lynn Cameron. Tim is employed by the Evansville Police Department.

ROBERT L. MOFFITT recently married the former Debra Unferferth. Robert is employed by the Ramada Inn in Henderson.

1975

KENNETH BROWN, who majored in general science, has accepted a teaching position with Crossville High School in Illinois.

MICHAEL D. EAKINS recently received his Master of Religious Education degree at the Southern Baptist Theological Seminary in Louisville, Kentucky.

JEFFREY GAUL, a history major, has accepted a retail sales manager's position with Goodyear Tire & Rubber Company in Evansville.

ROGER KAVANAUGH, a communications major, has been promoted to driver supervisor with United Parcel Service in Versailles, Indiana.

1976

JACKIE BRIDGES and **WILLIAM MUEHLENBEIN '77** were recently married. Jackie, a business education major, is employed at Sears and Bill, a management major, is employed by Boetticher & Kellogg.

BERNICE BONE and **RANDALL WARD** were recently married. Bernice graduated with a degree in secretarial administration. Randy is a student at Indiana University School of Dentistry in Indianapolis, where they will make their home.

RICHARD CAMPBELL was recently married to the former Linda LaRue Cloud. Richard was an accounting major and is employed as an accountant at First City Bank & Trust Company of Hopkinsville, Kentucky.

CATHY CRABTREE, a business management major, has accepted a manager's position with Village Inn in Louisville, Kentucky.

RITA A. FINE was recently married to Tim E. France. Rita majored in radiology technology. She is employed in the Deaconess Tri-State Cancer Care Center and Tim is operations manager for Metro Beechcraft.

ANN GIBSON, an English major, has accepted a sales position with Sears & Roebuck Company.

SANDRA GLASCOCK was recently married to Joseph Logsdon IV. Sandra is presently employed as the Health and Safety Instructor at Amax Coal Company and Joseph is promotion director for Channel 14.

DANIEL GREER, a marketing major, has accepted the position of claims adjustor for Crawford & Company.

WILLIAM HARVEY, who majored in general business, has accepted a sales position with Bowman Distribution Company.

MAURITA MAG-LINGER, a dental hygienist, has accepted a position with Dr. Greif in Evansville.

HAROLD MOTZ, was recently married to the former Cindy Dougan. Harold majored in business management, and is a merchandising consultant for Paramount Foods in Louisville.

JANET S. MURRAY, a medical technology major, recently married **MIKE NIEMEIER**, a life science graduate. They reside in Indianapolis where Janet is employed at Westview Hospital and Mike is a student at the Indiana University Medical School.

EDWARD OBERMEIER, a business management major, has accepted the position of production scheduler for Leed Selling Tools Company in Ireland, Indiana.

STEPHEN M. PITT, a sociology major, was recently married to the former Karen A. Kuhn. Steve is employed as a caseworker for the Department of Public Welfare.

JAN G. PYNAPPEL was recently married to the former Linda D. Agnew. Jan received his degree in history.

CANDACE L. SNYDER was recently married to Mark A. Clark. Candace received her degree in business management and is presently employed as assistant manager of Princess Theater in Bloomington. Mark is a student at Indiana University.

VICKI L. TRAMEL and **VAN ALLEN JONES** were recently married. Vicki, an x-ray technology major, is employed by Lutheran Hospital and Van, a mathematics major, is employed by Lincoln National Life Insurance in Ft. Wayne, Indiana.

1977

DAVID K. BAILEY, a sociology major, has accepted a position with Feigle Construction Corporation as a driver.

JOSEPH BEANE, an accounting major, has accepted a position as trainee adjustor with General Adjustor Bureau in Ft. Wayne.

BERTHA BENNETT, an elementary education major, has accepted a teaching position with Henderson County School System in Henderson, Kentucky.

RUTH E. BLYTHE was recently married to John Anoskey. Ruth majored in elementary education. John will enter Indiana University School of Dentistry in Indianapolis.

HENRY M. BREWSTER, an elementary education major, has accepted a teaching position with the East Gibson School Corporation in Francisco, Indiana.

TERRY BUCHER, a marketing major, has accepted a sales representative position with Xerox Corporation.

GEORGE MICHAEL BURKS, a communications major, has accepted the position of technical director at Channel 7 television.

SHARON BURKS, a secretarial administration major, has accepted the position of administrative assistant with the American Red Cross in Evansville.

LAMONT DORSEY, an accounting major, has accepted an accounting position with Mead Johnson & Company.

THOMAS FARRAR, an accounting major, has accepted the position of staff accountant with Ernst & Ernst in Indianapolis.

LOUIS FLECK, a life science major, has accepted a teaching position with Pontiac Township High School in Pontiac, Illinois.

KENT GONNERMAN, a general business major, has accepted a position as sales representative for Best Foods Corporation in Evansville.

KATHY GOODLOE, a communications major, has accepted the position of Donor Recruitment Consultant with the American Red Cross in Louisville.

CHARLES GOODMAN, an art education major, has accepted a teaching position at Plaza Park School in Evansville.

ROGER HOLZMEYER, a management major, has accepted the position of maintenance supervisor for the Packaging Corporation of America in Omaha, Nebraska.

CLIFFORD JONES, a management major, has accepted a production manager position with the Packaging Corporation of America in Jackson, Tennessee.

KURT KOENIG, a management major, has accepted the position of management trainee with the Packaging Corporation of America in Vincennes, Indiana.

JAN MARTIN, a secretarial administration major, has accepted a secretarial position with Mead Johnson Research Center.

MICHAEL MASON, an accounting major, is employed with the George S. Olive Firm in Evansville.

CHERRY MAYO, an office management major, is a procurement assistant for the Whirlpool Corporation.

KARLA MOLL and **DANIEL HORRELL** were recently married. Karla is employed by Louisville Tile Distributors of Evansville. Dan is employed by Midwestern Gas Transmission Company of Petersburg.

MARY L. MYERS, a dental assistant major, has accepted a position with Dr. Nevill.

DONNA NOWAK, a dental assistant major, has accepted a position with Drs. Troyer and Altekrose.

KENNETH POSEY, a management major, is a foreman for the Eden Corporation in Henderson, Kentucky.

STEVEN MOORE, '73 and wife Rebecca, a daughter, Sarah Ann, born April 13, 1977.

DALE ROTH, '74 and wife Carolyn, a daughter, Erin Kaye, born March 8, 1977.

DENNIS SEIB, '74 and wife Karen, twin sons Nicholas William and Jonathon Todd, born January 19, 1977.

SAMUEL SETTLEMOIRE, '73 and wife Lynn, a son, Timothy Neill, born February 1, 1977.

RAYMOND SMITH, '72 and wife Nancy, a daughter, Brittney Leigh, born March 4, 1977.

BRADLEY WINDELL, '75 and wife Bonnie, a son Matthew Christian, born January 6, 1977.

ISUE A TRADITION IN THIS FAMILY

"While I was in high school there was always an older brother at ISUE," commented T.J. Dunigan, a dental technology student, when asked why he selected the University. "Always" may seem extreme, but if you were the youngest of five brothers in a family, you would have heard a lot about college life by the time you were ready to experience it.

The Dunigan brothers cite several reasons for selecting ISUE, but utmost in importance to them is the campus' convenience to their home in Mt. Vernon. David found attending ISUE more economical because of the availability of assistance through Veteran's Administration programs, and each expressed the belief that there was no need to go away to school when state-supported higher education was accessible here.

Although all five of the Dunigans have followed the math and science or business programs at ISUE, they each have utilized their knowledge in diverse fields.

Jerry, the eldest, attended ISUE classes at the Centennial School for two years before joining the Marine Corps during the Vietnam conflict. He returned to ISUE's new campus after service.

Following a jaunt with the U.S. Navy, David began pre-medical coursework at ISUE and graduated with a bachelor of science degree in 1977. During his under-

graduate study he was active in the Science Club. His intent now is to enter medical school. While waiting for word this summer, he is picking up a mathematics course at Connecticut State University. He, his wife Carol, and son Matthew are living in Connecticut to be near her family.

By carrying college classes at ISUE, along with the normal high school academic load, Michael Dunigan received his bachelor's degree in just three years. Michael, who has been employed as a lab technician at the Fuhrer-Ford Division of ADM Milling in Mt. Vernon, is interested in the field of research and development.

Another Dunigan will graduate from ISUE in the spring of 1978 when Pat, a biology/psychology major, receives his bachelor of science degree.

Mrs. Margaret Dunigan, their mother, attributes her sons' higher education motivations to their father who encouraged them to follow college-oriented coursework in high school. Gerald Dunigan, a Mt. Vernon dentist, and his wife both have tried to guide their sons toward professions or vocations in which they would continue to grow after completion of their formal education.

Higher education has become a tradition in the Dunigan household and, continuing that tradition, this generation has chosen ISUE.

INDIANA HIGHER EDUCATION TELECOMMUNICATION SYSTEM INSTALLS TOWER AT ISUE

Indiana State University Evansville became an important link in the community's telecommunication system in June when a 120-foot tower was erected near the Technology Center on campus. The tower was installed by Indiana Higher Education Telecommunication System (IHETS) and will play an important part in extending the closed television network, operating on the Instructional Television Fixed Service (ITFS) band, to locations in the Evansville area.

The ITFS band is designed to be a basic tool of the educational system, and enables direct programming to a receiver location from another point in the telecommunication system.

The television network operated by IHETS is much like a pipeline; consequently, it differs from the popular concept of a network. Most television networks send one program at a time from a single distribution center to all reception sites. The IHETS network, however, is a "switched" system which makes possible simultaneous input from five different cities. That is, the video channels can be switched, or rearranged, to allow different paths for the programs. For instance, while one program goes from Bloomington to South Bend, another program can be going from Purdue to Evansville. Dozens of combinations are possible.

Primarily, ISUE utilizes the IHETS system for instruction in engineering, real estate, pre-pharmacy, and medical education. These programs originate on the Purdue and Indiana University campuses. However, other programs in teacher education and continuing education are available through the ITFS band. While most telecasts

sent over the IHETS network are for specific classes, some are generally available for use by any member institution.

When the construction stage is completed in September, TV signals will be relayed via the tower at ISUE from the reception dish atop the ISUE Science Center to the Old National Bank Building in downtown Evansville where a tower will be installed. From there the signal will be "broadcast" to the area on a secure channel. Receiver locations will be established throughout the city wherever an IHETS converter is located. Primary sites are the city's three hospitals, the University of Evansville, and Ivy Tech.

ISUE supervised the mounting of a

fifteen foot antenna atop the tower to implement a short wave radio station which will service the campus radio club and the noncredit continuing education course in "Ham Radio." In the future, an FM radio station could use the antenna for broadcasting from the ISUE base.
