MERRY CHRISTMAS!

A CHRISTMAS TALE (NON-FICTION). This is the story of a truly inspired Christmas tree. Once upon a time (one week and five days ago, to be exact), *Rosemary Oberhausen*, being the dedicated secretary that she is, had a small tree erected in the Science and Math Division. Immediately she set upon the task of decorating the tree, but with very few traditional Christmas ornaments, was somewhat limited. *Dr. Denner*, seeing *Rosemary* in a quandary and with an immediate grasp of the situation, came to her rescue with a contribution -- a blue crab skeleton. "Wonderful," she cried, and hung the crab on the tree. Almost magically, another ornament appeared -- a set of falsies (teeth, that is). Here was the solution to the problem! So *Rosemary* suggested that each department in Science & Math make their own unusual contributions to the Christmas decorations. "This will be a tree we'll all remember," she exclaimed. Dental Hygiene, seeing that their mischievousness was now simply a matter of course, hung a syringe, pick, toothbrush, X-ray, and bandaid on the tree. Exciting contributions from the math department included a sphere, compass, triangle and such, while other departments came up with pheasant feathers, snails, butterflies, sea shells, petrified animals, an egg case from a marine snail, ecology button, grasshopper, rose quartz, azurite, hematite, micah, and that crowning touch -- a star fish to top the tree. Gorgeous! Wow! Interesting! were only a few of the adjectives used to describe the nearly completed tree, but something was still missing. "A-ha," *Dr. Kelley* cried, "I know what it is," and immediately proceeded to wind one hundred yards of dental floss around the tree to give it an indescribable look of non-decayable elegance.

And so, with a lack of necessary materials but loaded with imagination, a truly unusual Christmas tree was created, and with such small beginnings, also are traditions born!

HOLIDAY NOTICE. Offices will be closed December 24, 25 and 26 for the traditional Christmas holidays, and on January 1, 1975, New Years Day. There will be no issue of University Notes printed the week of Christmas.

CAFETERIA MENU.

Wed., Dec. 18 (a) Barbecue & French Fries
(b) Hamburger steak with onions

Sun., Dec. 22 Buffet

The Cafeteria will be closed December 19 through January 4. The Snack Bar will remain open on days the offices are open. Hours for the Snack Bar will be posted. No Sunday buffet will be served on December 29, but will be open as usual on January 5.

ISUE HOMECOMING. ISUE's Homecoming game with Franklin College was combined with the official Central Arena opening and ribbon cutting ceremony last Saturday, December 14. A record-breaking crowd of over 1100 was present for the confrontation. The ribbon-cutting ceremony was a pre-game activity with local and area dignitaries participating.

Half-time activities included the introduction of the homecoming queen candidates and crowning of the queen. *Karen Sweat*, a pre-nursing student, was named 1975 Homecoming Queen. *Karen*, a freshman, was nominated by the German Club. First runner-up for the crown was *Amy Heilmann*, a dental hygiene student. *Amy* was nominated by Alpha Omega Psi and is a freshman. Seventeen candidates were vying for the Homecoming Queen title.

The ISUE Eagles, after a close and competitive game with Franklin College, lost by a narrow four-point margin. Final score was 76-72. A reception followed the game sponsored by the Alumni Association.

CURRICULAR COMMITTEE. The Curricular Committee has given its initial approval to petitions for seven new art courses and modifications to five others.

The new art courses are:

- Art 230 A and 230 B, Commercial Design
- Art 340 B, Stained Glass
- Art 330 A and 330 B, Commercial Design
- Art 440 A and 440 B, Stained Glass

Art courses to be modified are:

- Art 322 A and 322 B, Ceramics
- Art 340 A, Stained Glass
- Art 422 A and 422 B, Ceramics

Generally the proposed course modifications would update the catalog descriptions and add suffixes to course numbers to reflect the addition of the proposed new courses.

The proposed new Commercial Design courses are viewed as potential service courses to the Business and Technology programs. The stained glass courses are possible extensions to the New Harmony Art program.

PEOPLE IN THE NEWS.

CHARLES T. BARBER, Assistant Professor of Political Science, wrote an article, "International Studies Media for the Pre-School Child," which appeared recently in Occasional Papers No. 3 of the Consortium for International Studies Education.

POSITIONS AVAILABLE. The following positions are available as of December 12, 1974. Women and members of minority groups are encouraged to apply. Contact the Personnel Office to apply except where otherwise indicated.

FACULTY POSITIONS

Marketing Faculty person	Division of Business	Teaching experience, doctoral degree preferred. Will consider ABD. Teach undergraduate and MBA courses. Available August 27, 1975. Resume by Jan. 15, 1975 to Dr. Kenneth Settle, Chairman.
