Pizza thefts jeopardize delivery

by Tami Hershman
Staff writer

On Sept. 18 four thefts occurred at the Ray building in MASH apartments.

Two Domino's pizzas were stolen from a delivery vehicle when the driver got out to make his delivery.

A second incident occurred at the end of August. USI students verbally abused a Dom-

ino's delivery man at Hovey Building in Campus Apartments.

There were no weapons used in the assaults, according to Barry Hart, director of safety and security.

Hart said incidents of theft are occurring equally at both MASH and Campus apartments.

It is no longer a college

prank because it is becoming so routine. It is a serious crime which is not worth being kicked out of college or put in jail."

Housing offices distributed flyers in an effort to gain information regarding the pizza thefts, but have had no response.

Domino's management has informed security that if there are more thefts, service to USI apartments will be suspended.

Food service responds to "feedback"

by Jan Douthitt
Staff writer

A small audience gathered for the first of a series of "feedback" meetings, conducted by the Foodservice Committee, Tuesday evening in the UC.

The group met with ServiceMaster representatives Bob Karrmann, assistant food service director, and Kevin Worzalla, food service director, to discuss positive and negative changes in the food service program, said Karrmann.

The group also discussed the quality of the food that is now being served, he said. "One of the complaints had to do with the roast beef."

The roast beef was "too salty" and had a "funny texture to it," he said. As a result of the complaint, the beef product now being served will be replaced, said Karrmann.

Positive changes included the remodeling of the Eagles' Nest Snack Bar, promotions, coupons and overall a "good food quality."

The group even approved

Ex-abortionist speaks to students

by Diana Lutz
Staff writer

Carol Everett, former abortion clinic operator and currently Pro-Life activist, spoke to USI students on Friday.

She began her involvement with the Pro-Life Movement in 1983 after being the target of an expose conducted by Channel 4 in Dallas.

Everett managed four abortion clinics, two of which she owned in the Dallas/Ft. Worth area. She has been "involved with" over 35,000 abortions since her own in 1973.

"I felt as though I murdered my own baby," she said. "I began to work in the industry to justify my decision. With every abortion I sold, I felt better about my decision. I really felt as though I was helping other

women. I was suffering from post-abortion syndrome."

Everett said that the post-abortion syndrome is comparable to the post-traumatic stress disorder experienced by Vietnam veterans.

Everett represents the Life Network which counsels abortion survivors, men as well as women. The Texas-based group provides counselors, and is considered a grassroots movement to abolish abortion.

"Roe v. Wade will fall in 1993," she says. "If by some chance it does not, we will use any legal channels at our disposal to regulate the abortion industry out of existence."

"Abortion is about money," she said. "We sold abortions to women in Texas who were not pregnant. Fear and intimidation are the tools of the trade."

Everett said that the way to insure the sale was to separate the woman from her support group.

"If we could insure the quick sale, we had a better chance of a second and third abortion from the same woman."

Everett has written a book about her experiences, titled Starlett Lady: Confessions of a Successful Abortionist, and it will be released soon, she said. She said she hopes it will be read in both the secular as well as the christian community.

Everett was brought to USI by the Indiana Collegians For Life (ICFL). The ICFL engages speakers to inform people about abortions. Mandy Mosby, president of ICFL said the group has been on campus for three years.

West Side Wal-Mart fire well attended

by Chad Williams
Staff writer

An electrical fire which caused minor damage at the West Side Wal-Mart store Sunday night, prompted a response from three area fire departments.

The fire was caused by an electrical short behind an aquarium unit in the pet department, said a spokesman from the German Township Fire Department.

Fire departments from Perry and German Townships, and county officials responded to an emergency call about 9:45 p.m. The fire was put out minutes later.

The night maintenance supervisor, Dave Welman, discovered the fire while sweeping the floors in the area.

RSD's roles clarified with renaming

by John Wells
Staff writer

In an attempt to update USI housing programs, this year the RSD's are renamed Resident Assistants, or RA's.

"This brings us in line with other schools," said Greg Myers, director of housing. "Maybe it will even help them later in life with their job hunting."

Another reason for the updating was for a clearer identity for the RA's and their responsibilities.

The RA's have three distinct roles.

"They should be a resource

for the residents," said Myers. "This is the first and foremost."

"The most misunderstood role of the RA is discipline," Myers said. The RA is supposed to confront incidents in housing and "report them back to the office," said Myers. "They are my eyes and ears out of the office."

quired to have two socials in their building. This is to provide "social and physical wellness programming," said Myers.

"I'm not asking them to really do anything different this year," said Myers. "I'm asking them to be more visible."

This should build a more positive and active image that residents need at housing, according to Myers.

The last role of the RA's is programming. They are re-

Student assaulted

by K.C. Grosenick
Editor

A female student reported being assaulted near student housing Wednesday morning, according to Barry Hart, director of security.

According to Hart, the student was pushed down, and was not seriously injured.

The assailant has not been identified, but was described as a white male.

"I don't know what his intentions were," said Hart. "But the most he could get right now is a misdemeanor for assault and battery."

In attempt to notify students of the occurrence, security has distributed flyers stating that a Sheriff's investigation is under way.

According to the flyer, "Because someone has violated our sense of safety and well-being, we must begin to watch out more carefully for ourselves and for one another."

Hart also said that security is not going to be increased. "I can't say we're going to increase security. I feel pretty comfortable with the way we're working it right now," Hart said.

McCloskey leads airlift to Laos

Washington, D.C. — Congressman Frank McCloskey will lead a humanitarian airlift into Laos later this month to distribute medicine from Mead Johnson and Eli Lilly and Company and question the Laotian government about American POWs/MIAs.

McCloskey, who is scheduled to travel to Southeast Asia today and return Monday, will fly into Laos on military aircraft with more than \$30,000 worth of medical supplies donated by Mead Johnson Nutritional Group, based in Evansville, and Eli Lilly and Company, based in Indianapolis.

"This trip will accomplish two goals," said McCloskey, a member of the House Foreign Affairs Committee and the House Armed Services Committee. "We will provide desperately-needed medical supplies to the Laotian people and hopefully clear up some of the mysteries surrounding discrepancy cases of American POWs/

MIAs such as Captain Shelton."

World Vision Relief and Development, Inc. a non-governmental organization, will coordinate the distribution of the donated supplies, and also provide extra donations from other sources.

Chantho Sourinho, past president of the Federation of Lao Associations of America, is donating more than 500 textbooks to Laotian schools and the U.S. department of Defense is delivering surplus Pentagon materials.

While in Laos, McCloskey plans to meet with Phoum Sipaseut, the Laotian Foreign Minister, to inquire about American POWs/MIAs who might still be in Laos from the Vietnam War.

The Eighth District Congressman will ask about Captain Charles Shelton, the sole remaining American POW declared by the U.S. government in Southeast Asia. McCloskey also will ask about

the approximately 34 remaining servicemen listed as MIAs in Laos from Indiana, Kentucky and Illinois.

Mead Johnson Nutritional Group has donated 150 cases of Ricelyte, an oral electrolyte solution for children with diarrhea; and 25 cases of FER-IN-SOL drops, an iron supplement.

Eli Lilly and Company has donated an assortment of antibiotics including 150 packages of Cordran ointment; 82 packages of Ilosone; 150 packages of Ilolycin ointment; 70 packages of Kerflex; 70 packages of V-Cillin K 250 mg tablets; and 50 packages of V-Cillin K 500 mg tablets.

"Mead Johnson Nutritional Group and Eli Lilly and Company have both made enormous contributions toward this airlift and to the Laotian people," McCloskey said. "Because of the desperate situation in Laos, these supplies could literally make all the difference."

Art Club seeks logo

The USI Art Club is holding a logo design contest open to all university students. The logo must represent the Art Club, and be no larger than three inches by five inches in a horizontal format. It should be black ink linework and suitable for printing.

The winning design will be used on Art Club stationary, letterheads, and as an identifying trademark for fu-

ture projects. The artist will receive a \$15 cash prize and a valuable resource for their resume.

Artists should bring submissions to the Art Annex building. There is a drop box inside the door. A deadline for the contest has not yet been announced. For more information, contact Melissa Laughlin at 464-7534 after 5:30 p.m.

"I was sweeping the floors when I saw this smoke, like dry ice, rising out of pets. I called the fire department, and tried to put out the fire," said Welman.

Welman then evacuated the building and exhausted two fire extinguishers by the time the fire department arrived.

Jim Murrell, manager of the Wal-Mart store, said damage was minimal, and is extremely grateful to Welman for discovering the fire in time before any real damage was caused.

Student's 'square meal' is 'stone cold', unsatisfactory

To the Editor:

Today I had lunch in the upstairs dining facility at the University Center. Today was the seventh time since the beginning of the semester, and it will be the last.

I have attended this university for four years, and I've depended on this dining facility to provide the one "square" that I would not otherwise receive because of my hectic schedule.

The quality of the food in this dining center has deteriorated to an intolerable level. Today I ordered the veal parmigiana, steamed vegetables and dinner roll. Now I've had this meal in past years, and it has been quite good.

However, today was a different story. The veal parmigiana and the vegetables were stone cold, so cold in fact, that it took three minutes in the microwave to heat them up. This upset me to say the least, because I went through the service line at 10:35 a.m. and the @#%* place had just opened at 10:30 a.m.

We've all seen the drastic changes that have taken place at the UC, and this is all fine and good. However, this issue is not of form, it is an issue of content.

ServiceMaster is the new food service company that has taken over food production at the UC. I think we can all agree that their form is excellent, but their content can use some improvement.

When I purchase a four dollar meal that is supposed to be served hot, the least I expect is a hot meal.

Abortion: 'Don't wake a sleeping snake'

by Allen VanHoosier
Staff writer

While traveling to school the other day, I came up behind a car that had a bumper sticker that read, "The unsafest place to live in America is in a mother's womb."

Abortion has been on the minds of millions of Americans lately concerning the nomination of Clarence Thomas. Republicans are wanting to find out if Thomas is pro or con on the matter. Maybe it's just me, but I was taught to never wake a sleeping snake.

Since Roe v. Wade, abortion has been a topic that has saved and killed politicians. Something about the fact is puzzling to say the least; the majority of the politicians in question have been of the male persuasion. Correct me if I'm wrong, but isn't that an unfair way to go about getting a majority consensus on a woman's issue?

The male-dominated society feels that abortion (and

their feelings behind it), is for the most part, a question of when does life begin - inside or outside the womb? For the majority of American women, it is a question of whether a woman has a right to choose abortion as an option.

Lately in the news, people have seen the footage of the pro-life rallies outside the family planning clinics. I would die for anyone's civil right to peaceably assemble, but can you consider handcuffing yourself to the front door of the clinic peaceful?

Deciding whether or not to have an abortion has to be psychologically painful to say the least. Imagine someone spitting on you and calling you a "baby killer" to your face. How childish can you get?

For the record, I'm pro-choice. But, in my opinion, it doesn't matter how I feel on the issue because it's not my womb, or (excuse me) lack thereof.

People need to realize that the issue of abortion is not an

issue of whether a fetus is a life or not. Scientists still haven't been able to figure that one out yet. The entire issue should be based on a woman's right to choose, not a man's right or a male politician's right, but a woman's right.

You don't have to support the idea of abortion to be pro-choice. It's important that people realize that, even though the conservatives would have you believe the entire issue comes down to life or death.

So if it ever came down to a vote, the conservatives would be quite happy knowing that they brainwashed the majority into thinking that they were voting on an issue of morality instead of constitutional ethics.

As for the bumper sticker, the most unsafest place to live in America, is to live here as a woman with a "big-brother" government screaming to have constitutional jurisdiction over your body.

Joey takes lead in 1992 pres. election

by Rick Jillson
Staff writer

If you ask me, it's not too early to start thinking, worrying, etc. about the 1992 presidential election. Unfortunately, unless President Bush is caught freebasing or unthinkingly makes a snide remark about Elvis, it appears we're looking at four more years without a domestic policy.

But there is a glimmer of hope, Americans. There is a man shrewd, rude, lewd and crude enough to dethrone King George and his sidekick Danny.

The president of Thornton's — let's call him Joey since I was too lazy to find out his real name — could steal the show next November.

Thornton Oil Corp. is the last bastion of true, unadulterated, ruthless capitalism in a world busily striving, at least according to its chief public relations representative, to become kinder and gentler. No other corporation,

nation or entity came out of the Gulf War smelling as sweet or sporting as much of a profit as the mighty Thornton's, and I believe much of the credit is due to the strong leadership of president Joey.

When the threat of violence arose in the Middle East, we all knew that the threat didn't warrant such an explosion in gas prices. Most people recognized the hike for what it was — a convenient and silly excuse to raise profits while robbing everyone with a car and/or lawnmower.

Of course, few people appreciated this unexpected and arguably unnecessary dent in their pocketbooks. Joey Thornton understood this.

Leaving even the mighty Shell in his dust, Joey masterminded a plan. Basically it went like this: we'll gouge 'em till they bleed, then subtly change our image.

The makeover didn't take long. As soon as our troops started biting foreign sand, Thornton's became more patriotic than an Army surplus store, offering cheezy Hanes T-

shirts with American flags and eagles, and maps of the Middle East which more closely resembled Idaho.

Then came the coup de grace. Now adorning every Thornton's super station is an American flag slightly larger than the one flying in front of the Pentagon.

So are Joey Thornton and his braintrust really a bunch of unabashed patriots? Was it merely peer pressure that caused Thornton's to raise gas prices? Hell no and hell no.

Joey Thornton is quite simply a public relations genius. He understands how to milk world politics and domestic emotion for big bucks.

Therefore, he is a perfect candidate for president. Joey Thornton is the only man intelligent, ruthless and uncaring enough to beat Bush at his own game of promise and hide.

And what campaign opportunities. He could take advantage of the fact that Thornton's sells three hotdogs for a buck. What could possibly be more patriotic than that?

Then there's the speaker

system. If you've ever purchased gas at Thornton's, you've been accosted, while pumping, by an Orwellian barrage of advice and propaganda from a network of hidden speakers.

What a perfect, inexpensive way of getting Joey's message across to the masses.

He could simply flood every Thornton's station with hours of endless campaign jargon, like: "Get the lead out. Vote Joey Thornton and the Unleaded Party."

Maybe you're thinking, "Nah, people will think he's some kooky radical."

Well that's where Clint Eastwood comes in.

By selecting Clint as vice president, Joey can legitimize his candidacy while swinging some of the conservative/red-neck vote.

Ok, maybe my plan is a little far-fetched, but we're talking desperation here.

Who else is going to save us from four more years of Dana Carvey impersonations?

Sons Of Freedom roar back with 'Gump'

photo by Kharen Hill

Sons Of Freedom has just re-released their second album, aptly titled "Gump." This album retains the raw power found on their first album.

by Jon Reidford
Entertainment Editor

Sons Of Freedom - "Gump" (Chrysalis):

All right, now I'll first admit that this second album (but first for Chrysalis) from the Vancouver quartet Sons Of Freedom is pretty swell, but what the hell does the album title "Gump" mean anyway?

Singer/lyricist James Jerome Kingston has the answer: "Because Van Halen had 'Jump' and Aerosmith had 'Pump.'" Kingston, who is the only member of the band who isn't named Don, ought to know what he's talking about.

Anyhow, "Gump" is good enough to add to the confusion to the people who've been trying to nail down labels on their muscular-yet-thoughtful music since their inception in 1986. Avoiding being posted down genre-wise also, they earned a fair amount of international acclaim for their 1988 debut album which England's New Music Express magazine called "a mad dog of a record which nobody should ignore."

In addition to the critical acclaim, the disc also won acclaim from such favorite fans as Robert Plant and Motley Crue's Tommy Lee, and earned them Canada's prestigious CASBY award as Most Promising New Group.

Sons Of Freedom, which also includes guitarist Don Harrison, bassist Don Binns and drummer Don Short, live up past their hype in "Gump" which builds on and redefines its predecessor's achievements. In such tracks as "You're No Good," "I Don't Care Anymore," and "U.S.A. Long Distance," the lyrics are both humorous and emotionally honest while combining flat-out adrenaline-pumped aggression with melodic finesse. Also, the gently groovy "I Can See" and the pulverizing yet danceable "Call Me" proves Sons Of Freedom are a band that pays equal attention to its head and its heart.

Kingston explained in a press sheet the nature of their music: "Our name sums up what we're trying to do... Once the change has happened, you have to work out new ways of

doing things. That's what we've tried to do with the music: we've absorbed metal, hard rock (and) punk, and now we're trying to take that and move forward."

Sons Of Freedom recorded "Gump" with noted Canadian producer Chris Wardman (credits include The Pursuit Of Happiness, The Tragically Hip, and The Leslie Spit Tree-o) and mixed by old pal Matt Wallace. The new disc finds the band refining its writing and arranging craftsmanship while retaining the raw power that distinguished its previous work. "So what I think I've done on the new songs," explains Kingston, "is write within the whole grand scheme of good film or theatre, which is to handle a general or universal theme in a specific manner. There are specific emotions I'm homing in on now."

The emotion is definitely in the grooves of "Gump." Once again, Sons Of Freedom proves you can rock and think at the same time. Fasten your seatbelt and enjoy the ride.

'Bam Bam' wins U.S. shootboxing title

by Rick Jillson
Staff writer

USI Sophomore Scott "Bam Bam" Sullivan never even considered that his 13-year obsession with martial arts would culminate in a battle against King Kong. Yet, that may be exactly what's in store for the newly-crowned U.S. Heavyweight Shootboxing (a variation of kickboxing) Champion.

This King Kong doesn't climb buildings or snatch up women, but he does terrorize his opponents. His last name is Iwashita and he is the reigning World Shootboxing Champion.

"If things go as planned, it looks like I'll be fighting 'King Kong' in November," Sullivan said. "He's Japanese, but he's 6 feet tall and 200 pounds."

The 23-year-old Sullivan says the fight will most likely take place in Tokyo — several time zones away from the hometown crowd he enjoyed last Saturday at the Coliseum, where he took the U.S. title from Dale Bussard in a unanimous three-round decision.

"It was great and very motivating to fight in my hometown, in front of family and friends," he said. "Obviously, it would be a different story in Tokyo, where shootboxing is extremely popular and so is 'King Kong.'"

Sullivan said that Iwashita is a national celebrity in Japan, and taking away his title would likely lead to a consid-

erable amount of money in endorsements and "various other perks."

"In Japan, you can make a great deal of money shootboxing. It's starting to gain popularity in the United States, but not like it is in Japan. Winning the world title could be very profitable," he said.

Shootboxing is a unique combination of kickboxing and free-style wrestling that is approximately three years old. Unlike kickboxing, where a referee doesn't allow fighters to clench or hold, shootboxing enables fighters to hold and even throw one another.

A shootboxing fight is scored similar to boxing, but bouts normally last only three rounds. The first round lasts five minutes, the second round four minutes and the third round three minutes.

Although Sullivan admits that the lure of a world title and its accompanying fortune and fame are very powerful, the Evansville native and graduate of Harrison High School is equally concerned about getting his bachelor's degree in political science.

"I'm at a definite point of decision," Sullivan said. "My career has already started interfering with my study time and, certainly if I was to win the world title, I'd be hard-pressed to continue at USI. It's a tough decision and something I have to do a lot of thinking about."

Also subtracting from Sullivan's study time is his job as

USI's Scott 'Bam Bam' Sullivan won the U.S. shootboxing championship Saturday at the Evansville Coliseum. Sullivan may have a shot at the World Championship title this November in Tokio, Japan. Sullivan is a political science major.

martial arts instructor at Martial Arts International (MAI). Sullivan has been running MAI for more than two years, and teaches kickboxing, shootboxing and general self-defense.

"For the past few months, it seems like I've spent every waking hour studying, teaching classes or training for and promoting the fight (for the

U.S. title)," he said. "Now that I'm the U.S. champion, I've still got homework, I still have to train and I still have to teach."

Although he won't admit it, Sullivan can afford to kick back a little and bask in his new-found and richly-earned celebrity. After all, he is now the undisputed U.S. champion of his sport.

"The recognition is neat and everything, and I've been asked for a few autographs," Sullivan said. "But it's kind of like turning 21. It's exciting and new but, after a while, you realize that you're still the same person. No matter how much I win or where I end up, I'll always be the same guy."

Soccer Eagles a disappointment in GLVC play

by Ali Malaekah
Sports Editor

The Screaming Eagles soccer team is off to its worst start in Great Lakes Valley Conference play since Tony Colavecchia took over as head coach three seasons ago.

USI, with the addition of all the injured players except sophomore Sean Helliwell, tied the Kentucky Wesleyan Panthers 0-0 Wednesday at Owensboro.

The Eagles started sophomore goalkeeper Larry Nohalty for the first time this season, along with sophomore Dean Doughty as an outside back

and freshman Brandon Kitchens at midfield. Doughty has played at the stopper or sweeper position since he arrived at USI.

USI took the offensive in the first half and attacked relentlessly, but with no result.

"For the first 30 minutes we played as well as we have played all year," Colavecchia said. "We bombarded their goal but failed to convert many easy scoring opportunities we created."

Following a shot from junior Travis Marx which bounced off the post, freshman Justin Igleheart was unable to score

from less than a yard from the goal line letting the ball slip under his foot. Junior Shane Gibson, who was coming back from ankle injuries, also had his chances to score but was unable to finish.

"We have our stability in midfield through the plays of (sophomore Greg) Titus and Marx," Colavecchia said. "But Igleheart's instability is what hurts us."

According to Colavecchia, USI is the best team in the GLVC. He said the school expects the team to win the conference hands down every year without realizing the

competition has improved.

"I have to give credit to Wesleyan and Indiana Purdue University-Fort Wayne to turn their programs around," Colavecchia said.

Sophomore John Hamilton reinjured his shoulder during the game even though he was wearing a protective brace. Hamilton, who has played in only five games this season is eligible to be a medical red-shirt if he does not play in any more games.

Colavecchia said Hamilton's situation is one of serious concern and no decision will be made before he speaks

with both Hamilton and Athletic Trainer Chris Diaz.

"I'll do what's best for John, both academically and athletically," Colavecchia said.

The Eagles will be hosting the annual USI/Kenny Kent Toyota Tournament today and Saturday. Longwood College will take on Mercyhurst College at 5:30 p.m. followed by USI v. Northeast Missouri State University at 8 p.m. today.

NEMO will challenge Mercyhurst at 5:30 Saturday while the Screaming Eagles will play Longwood at 8 p.m.
