The University of Southern Indiana student affiliate chapter of the American Chemical Society has been selected as an Outstanding chapter for activities conducted during the 1991-92 academic year.

The recognition is based on a review of annual reports submitted by the 850 college/university chapters to the organization's Committee on Education, which selects certain chapters and their activities as "Outstanding" or "Commendable."

Dr. Marie G. Hankins, chair of the USI Physical Sciences Department and chapter advisor, was cited as "deserving special commendation." Ernest L. Eliel, ACS president, noted, "It takes more than exceptional effort to make an Outstanding chapter; it takes the nurturing attention of dedicated staff. Dr. Hankins' efforts certainly represent the best in undergraduate science education around the country."
