Openings available in USI fall classes

**For Immediate Release
October 6, 1994**

The Super Saturday for Kids program on October 15 is among several which still have openings in the fall special interest or computer courses offered through the University of Southern Indiana Office of Continuing Education.

In "Gizmos, Gadgets, and Gears," Super Saturday youngsters will learn that doorknobs are machines just like computers. They will look at the basic mechanical principles of wheels, axles, levers, screws, wedges, inclined planes, and pulleys -- what makes them work and how they affect every day life. The program for youngsters age 3 1/2 through sixth grade will be held from 9 a.m. to 3 p.m., starting in Forum II; the \$30 registration fee includes lunch.

Other programs with openings include:

Introduction to American sign language, 7-9 p.m., six Mondays starting October 10

Furniture refinishing, 6:30 p.m., six Tuesdays starting October 11

Intermediate DOS, 8:30 a.m.-3:30 p.m. Wednesday, October 12

Basic drawing, grades 6-9, 9 a.m.-12 noon Saturday, October 15

Call the USI Office of Continuing Education, 812/464-1863, for information or to register.
