#### Vote slated on SGA restructuring:

The Student Government Association Senate approved a new SGA constitution and structure on January 30. The Senate and the Student Housing Association will host a Town Hall meeting at 4:30 p.m. Thursday, February 6, at McDonald West rec room to present the new constitution and structure. Students also will have an opportunity to present concerns they would like SGA to consider.

The new constitution will go before the student body in a special referendum Monday through Wednesday, February 10-12; voting will be from 11 a.m. to 2 p.m. in the Eagle's Nest and 4 to 6 p.m. in the Orr Center. All registered USI students are eligible to vote. Copies will be posted in the UC and at the polling booths. If the constitution is approved by majority vote, it will go into effect this semester. There will be a transition time with SGA expected to be following the new constitution by the end of April.

The proposed constitution defines the purpose of USI student government, the organizational structure, and the powers of the three branches that will continue to govern: executive, legislative, and judicial. Innovations add opportunities for student involvement in each branch. The Executive Branch will include the president, executive vice president, and a new position of attorney general. The Legislative Branch will have the most changes and increased representation to give the student body a greater voice on campus (see below). The Judicial Branch will change its name from Supreme Court to University Court and expand the number of justices from five to seven, effective in March 1997.

The new Legislative Branch will be made up of:

- Student representatives (formerly senators who represent different schools) - the number of representatives will increase, based on enrollment in each school; the five schools and University Division will be guaranteed at least two seats each
- Seven administrative vice presidents (new) - they will oversee committees and represent student interests in specific University areas: Academic Affairs, Student Affairs and Activities, social and cultural issues, business and finance, research and development, University affairs, and external relations
- Two members at large - one will represent commuter students, one will represent students in campus housing

#### Lincoln program:

Mr. Lloyd Ostendorf, artist, photographer, and author, will be the featured speaker at the annual Lincoln Day program at 2 p.m. (CST) Sunday, February 9, at Lincoln Boyhood National Memorial. The program will include music by the Rebel Singers of South Spencer High School, the Sons of Union Veterans of the Civil War color guard, and other ceremonies to honor the memory of Abraham Lincoln and his family. The traditional pilgrimage to the Nancy Hanks Lincoln gravesite and a reception at the Memorial Visitor Center will follow the program.

Prior to the program, Mr. Ostendorf will be available to sign copies off his book, *Lincoln - The Boy, The Man*. Using photographs and drawings, the artist/author has brought to life many well known and lesser known episodes that occurred during the 56 years of Lincoln's life. More than 150 events are skillfully illustrated in the book.

The Center also offers the first public showing of two original oil paintings, along with two historical displays. There is a portrait of Lincoln, believed commissioned by the Chrysler family, and one of Mary Todd Lincoln, done at the Racine, Wisconsin, monastery where she sought refuge in 1879. The displays include an Alexander Hesler photograph of Lincoln at the start of his 1860 campaign. The second shows Lincoln with noted abolitionists and civil rights leaders, including Frederick Douglass, in a Black History Month commemorative.

The FSSA request for applications calls for organizations and agencies interested in adopting fatherhood program models to address locally determined priorities and needs. Collaboration with other groups from the same geographic area is encouraged. Awards are expected to average \$15,000 to \$25,000 a year and will be implemented in two phases, the first for existing fatherhood programs, the second for new programs. February 17 is the application deadline for existing programs, April 17 for new programs. For information or a copy of the application, contact Dr. Peggy F. Harrel, coordinator of Grants and Sponsored Research, WA104H, extension 7016.
