**CREDIT UNION HIGHLIGHTS.** Here are a few tips for balancing your Share Draft Statement: The Credit Union recommends balancing a statement each month when it is received. It is more difficult to locate and correct

errors left undetected for several previous months than those caught right away. Do not forget to enter each transaction in your share draft register as soon as you write each draft; members have forgotten to record cash withdrawals, telephone transfers, and monthly dividends. The Credit Union will help any member balance their statement.
