10. Student Financial Aids

Twenty-eight work-study students are employed this summer in on- or off-campus jobs. This summer work serves a two-fold purpose. It provides some necessary services for various departments and enables these students to become orientated to our campus and the staff and faculty with whom they will be associated in the fall.

Our effort to help students find summer jobs in the Evansville area was only mildly successful. Our best estimate is that of the total referrals about thirty were successful. We hope to continue our efforts next year, now that we have made the initial contacts.
