DR. PRUIS TO BRING COMMENCEMENT ADDRESS

Dr. John J Pruis, retired Indiana business and education leader who chaired the Board of Incorporators for an Independent State University in Southern Indiana, will bring the address for the 1991 Commencement, which will start at 9:30 a.m. Saturday, May 11, in the Physical Activities Center.

Dr. Pruis will be presented an honorary degree, along with the **Rev. W. R. Brown, Sr.**, senior pastor of New Hope Baptist Church in Evansville for 37 years, and **Mrs. Judith A. O'Bannon** of Indianapolis, co-chair of Historic Southern Indiana Advisory Committee and president of Indiana Main Street Council.

Around 750 seniors are eligible to receive degrees in May, 75 of them as honors students. Four -- **Ms. Lisa M. Hale**, **Ms. Jane C. Hummel**, **Ms. Melanie A. Razor**, and **Ms. Julie A. Schmitt** -- will graduate summa cum laude, 38 magna cum laude, and 33 cum laude. Because of the record number of seniors and limited space, graduates must have guest tickets. Call University Relations, extension 1755 for information.

Dr. Pruis is a higher education advocate who served on the USI Board of Trustees from the Board's beginning in 1985 until his retirement last year. He was president of Ball State University from 1968 to 1978, a period of unparalleled growth for the university, then served as vice-president for corporate relations at Ball Corporation. As chairman of the Board of Incorporators in 1984-85, he directed the work which led to the establishment of USI as Indiana's sixth state university.

The Rev. Mr. Brown has been active in human rights in southern Indiana and was instrumental in the desegregation of education, employment, and public accommodations. He spearheaded the Martin Luther King, Jr., birthday celebration in Evansville. He is moderator of Southern District Association, president of the General Missionary Baptist State Convention of Indiana, and a vice-president of the National Baptist Convention. He was inducted into the Hall of Ministers at the Martin Luther King International Chapel of Morehouse College, Atlanta, in February 1991.

Mrs. O'Bannon, wife of Indiana Lieutenant Governor Frank O'Bannon, has concentrated her efforts on encouraging the arts, promoting historical and recreational resources of Indiana, and assisting people with disabilities. Her work with Historic Southern Indiana Project is an extension of work on behalf of historic preservation in Corydon, Indiana's first state capital and the O'Bannons' hometown. She is a board member for Indiana's only diagnostic center for developmentally disabled children with multiple handicaps and for two centers for retired citizens.

USI INVOLVED IN "ALWAYS A RIVER"

Several USI people are involved with "Always A River: The Ohio River and the American Experience," a multifaceted project being carried out this summer by the humanities councils of Illinois, Indiana, Kentucky, Ohio, Pennsylvania, and West Virginia. The project is supported by a \$175,000 Exemplary Award grant from the National Endowment for the Humanities.

The state councils, working with a wide range of cultural organizations, educational institutions, community leaders, and scholars, have created a project aimed at engaging a mass audience. Every facet is organized around the central issue of the significance of continued historical encounter between the Ohio River and the people who live on its banks, work on its waters, and use its precious material resources every day.

The project focuses on the way the river has shaped the personal experiences, commercial life, technological development, settlement patterns, and artistic vision of the people of its region. Inextricably linked to

SUNSHINE BASKET FOR JUDY BECK

A "sunshine basket" is being assembled for **Mrs. Judith A. Beck**, administrative secretary in the Registrar's Office who has returned home after undergoing surgery April 23 at Welborn Hospital for a brain tumor.

Friends are invited to contribute such items as stationery, books, candy, toilet articles, and so forth. The items are being collected by **Mrs. Jackie C. Pender**, switchboard operator, and **Mrs. Joan M. Jost**, administrative assistant in Student Affairs, and will be delivered Friday, May 3.

this is a consideration of how the people have changed and shaped the river and related to the primal natural forces which give it its special character and power.

The major activity will be the Lilienthal, a specially outfitted barge carrying an interactive exhibit in which visitors will experience the story of the Ohio River. The 154-foot-by-34-foot barge, owned by the Army Corps of Engineers and Tennessee Valley Authority, was built to accommodate TVA's 50th Anniversary Traveling Exhibit, featured at the World's Fair in Knoxville, Tennessee in the early '80s.

The barge has a two-story superstructure, almost 5,000 square feet of exhibit space, is fully lit for day or night use, and has 11 variable-sized galleries devoted to exploring a wide range of Ohio River subjects. They are aimed at a multi-generational audience and are interactive, with working models, artifacts, educational exercises, and on-board interpreters that will personally engage visitors in learning experiences. Gallery space also is available for local communities to provide individual exhibits.

The Lilienthal now is being outfitted at Mt. Vernon and will head up-river to start the "Always a River" tour May 22 in Pittsburgh. The exhibit will be at Tell City, August 8-10; Owensboro, August 12-13; Evansville, August 15-18; Henderson, August 20-21; and Mt. Vernon, August 23-24. It will close Labor Day weekend in Cairo, September 2-8.

Evansville Center City Corporation is planning a three-day festival to coincide with the Evansville docking. Mt. Vernon will

include the barge in its 175th anniversary celebration.

Also, 40 libraries along the river are conducting a "Heroes and Heroines of the Ohio River Valley" program in which participants will read and discuss five books to help re-acquaint area residents with the river. The books have been loaned to the first 25 readers who registered, but others are invited to sit in on the discussions. The series began April 14 at Evansville Central Library, 22 SE Fifth Street, with discussions held at 2:30 p.m. on Sundays, and April 3 at Alexandrian Public Library in Mt. Vernon, with discussions held at 7:30 p.m. Wednesdays.

At Evansville Central, Mrs. Lori Clouser, USI graduate and executive director of the Evansville Arts Council, reviewed *Follow the River* by Mr. James Alexander Thom, a fictionalized version of Mary Draper Ingles' abduction by and subsequent escape from Shawnee Indians in 1775; and Mr. Tom Tuley, editor of *The Evansville Courier*, reviewed *Half Horse, Half Alligator* by Mr. Walter Blair and Mr. Franklin Meine, relating the epic adventures of the legendary keelboatman, Mike Fink. wife who built a shantyboat and drifted down the Ohio River.

Mr. Thom opened the Mt. Vernon series by discussing his own book. Dr. Walter Everett, USI professor of English, later discussed *Follow the River*. Still to come are Dr. Donald Richardson, chair of the University of Evansville English Department, reviewing *Beloved* on May 1, and Dr. Robert L. Reid, USI vice president for Academic Affairs and professor of history, reviewing *Shantyboat* on May 8.

Dr. Darrel E. Bigham, USI professor of history and director of Historic Southern Indiana Project, is "Always a River" coordinator for this area. Dr. Reid has edited a book published by Indiana University Press that will accompany the barge exhibit and already is available in book stores. The book includes a section by Dr. Bigham entitled, "River of Opportunity: Economic Consequences of the Ohio."

An "Always A River" Public History and Folklore Conference -- "Images of the Ohio River" -- will be held May 10-11 at the University of Louisville, sponsored by UL and the Kentucky and Indiana Historical societies. Dr. Bigham will be a panelist for a session on "Peopling the Ohio Valley: The African-American Experience." Mr. Augustine J. Fredrich, chair of the USI Engineering Technology Department, will be a panelist for a session on "Ohio River Floods: Differing Responses," in which Dr. Reid will serve as commentator. Dr. Donald E. HEALTH NOTES from the Human Resources Department

Cancer Prevention - Avoid those factors that might lead to the development of cancer.

Estrogen: Estrogen treatment to control menopausal symptoms increases risk of endometrial cancer. Use should involve careful discussion by the woman and her physician.

Radiation: Excessive exposure to ionizing radiation can increase risk. Most medical and dental x-rays are adjusted to deliver the lowest dose possible. Excessive radon exposure in homes may increase risk of lung cancer, especially in cigarette smokers.

Nutrition: Risk for colon, breast, and uterine cancers increases in obese people. High-fat diet may contribute to development of breast, colon, and prostate cancers. High-fiber foods might help reduce risk of colon cancer. A varied diet containing plenty of vegetables and fruits rich in vitamins A and C may reduce risk for a wide range of cancers. Salt-cured, smoked, and nitrite-cured foods have been linked to esophageal and stomach cancer. Heavy use of alcohol, especially when accompanied by cigarette smoking or tobacco chewing, increases risk of mouth, larynx, throat, esophagus, and liver cancers.
