6. Parking of Vehicles inside the Academic Building Arc.

Because of the campus disorders and especially the bombings that have been taking place in the United State, it is felt that the following

action must be taken to enable the Security Department to more closely supervise the coming and going of campus traffic.

Effective September 14, 1970, all University employees and students will park their motor vehicles in the parking lot on the perimeter of the academic arc of buildings. This means that employees will no longer be permitted to park in the area of the power plant and the parking regulations regarding the service road and the dock area of the classroom building will be strictly enforced. Vehicles illegally parked will be ticketed and an attempt will be made to contact the owners to move their vehicles; and if this is not possible, the vehicle will be towed away.

Whenever it is necessary for employees to use these facilities while loading or unloading, the employee should contact the Security Department.

We realize this will create some inconvenience, but it is felt that this action is necessary at this time.

7. Indiana Student Financial Aid
