Openings available in USI's summer programs for children and adolescents

University of Southern Indiana offers multiple one-week Super Summer sessions and special enrichment courses for children of varying ages. Classes are held both on-campus and off-campus in June and July.

Programs available June 15 - 19 at USI include computers: World Wide Web discovery and learning word processing, spreadsheets, and graphic design; experiments in science; home alone instructions and babysitting (diapering included!); art; and discoveries in pre-history.

Programs available July 13 - 17 at Evansville Day School include scientific experiments and "magic" with science; computer applications in Macintosh; public speaking to prepare youngsters for speech teams and drama; and a painting, sculpting, and drawing art class.

The summer also offers a horse lover's clinic June 30 and July 1, or July 21 - 22 at Cedarwood Farms; "Surfin' the Net for Parents and Kids" June 9 and 16 at USI, so that parents can attend the class and learn with their children; and SAT 1 preparations June 13 and 20 at USI.

Instructors are teachers from local school corporations, USI faculty, and other professionals.

Class times and durations vary. Most classes are either morning or afternoon for one week, while the horse clinic is five hours per day for two days and the SAT 1 preparations classes are six hours for one day. Registration fees also vary. For a free Super Summer/Enrichment brochure, call 812/464-1989 or 800/467-8600.
