### TIAA GROUP DISABILITY INSURANCE, 1978-1979

The University disability insurance program with Teachers Insurance and Annuity Association of America provides income and TIAA-CREF retirement contribution continuation in the event of a long term total disability.

The income benefit formula has been 60% of the first \$1,000 of covered monthly salary and 40% of any excess amount up to a maximum monthly income benefit of \$1,500. For several years TIAA has offered an improved benefit formula which provides for income benefits on the basis of 60% of the first \$2,000 of covered monthly salary with 40% of any excess amount up to a maximum monthly income benefit of \$2,500.

An increasing benefit provision has also been available to assist those on disability benefits. A three per cent increase in income and waiver benefits is provided each year to adjust for inflation during the period of total disability.

Effective July 1, 1978, the improved benefit formula and increasing benefit provision have been added to the disability insurance program. These improvements will apply to total disabilities commencing after July 1, 1978.

Comparison of present and proposed monthly premium rates per person is as follows:

	Present Rates	Proposed Rates
Income Benefit Premium	\$5.82	\$7.99
Waiver Benefit Premium	\$1.63	\$1.96

The University will continue to contribute approximately 50% of the premium cost based on individual appointment salaries.
