

INDIANA STATE UNIVERSITY EVANSVILLE
"Equal Opportunity and Affirmative Action Employer"
UNIVERSITY NOTES. VOL. X NO. 41 JUNE 23, 1976
Editor, Kathy Funke; Associate Editor, Julie Gaul

INVITATION. A reception in honor of Carl C. Lyles will be held at the ISUE University Center on June 27 from 2:00 p.m. - 5:00 p.m. by the Lyles family. Mr. Lyles, who is on the part-time teaching staff at ISUE, retired from the Evansville-Vanderburgh School Corporation on June 11, 1976 after serving for forty years in the field of education as teacher, assistant principal, and principal in the Princeton, Indiana city schools and the Evansville-Vanderburgh

School Corporation. Friends, colleagues, and former students are invited to this tribute to an outstanding educator.

SUMMER BASKETBALL LEAGUE. The Athletic Department is hosting a summer basketball league for area grade school boys. All participants will have the opportunity to profit from valuable game experience, as each game will be officially conducted according to rules governing IHSAA competition. League play will commence the week of July 12 for five weeks, with League I, ages 9-12, competing on Monday and Wednesday, and League II, ages 11-15, on Tuesday and Thursday. All games will be played during the morning hours at ISUE Arena, and will be under the supervision of Wayne Boultinghouse, Athletic Director and Basketball Coach. Each team is responsible for selecting its own roster and for providing its own coach or supervisor. Once entries are completed, players will be notified about the schedule. There is a \$20.00 fee per player. For additional details, contact the Athletic Department, Ext. 346.

EQUITABLE GROUP LIFE INSURANCE PROGRAM. The ISU Board of Trustees, upon President Landini's recommendation, has approved a change in the Equitable Group Life Insurance Program effective July 1, 1976. The effect of this change will result in lower employee contributions through payroll deduction for all participants in the group life insurance program; contributions by the University will be increased.

Presently, the University pays the full cost of the first \$5,000 of coverage plus \$.23 per \$1,000 for coverage in excess of \$5,000. Effective July 1, 1976, the University will pay the full cost of the first \$8,000 plus the cost over \$.36 per \$1,000 (\$.27 per \$1,000); employees contributions will be reduced from \$.40 to \$.36 per \$1,000 for coverage in excess of \$8,000. The present schedule of coverage amounts based on salary level will remain unchanged.

Payroll deductions for the July 1 premium were changed beginning on the June 4 paycheck for all bi-weekly and hourly employees; monthly employee deductions will be changed on the June 30 monthly check for premiums beginning July 1.

FOOD SHOPPING, 1776 STYLE. In keeping with a popular fantasy during this Bicentennial Year, imagine it is 1776 and you are shopping for food supplies in that bustling city of Philadelphia. You buy in volume -- in gallons and barrels and hundred pounds. The reason: You don't get to the store so often and -- convenience foods being in

FOOD SHOPPING, 1776 STYLE, CONTINUED. the future -- you make your recipes from scratch.

You note that flour is up to 9 shillings and 4 pence per 100 pounds and sugar demands 31.90 shillings a 100 pounds. That other favorite sweetener, molasses, costs 1.05 shillings a gallon. A barrel of beef (about 100 pounds), salted and brined, has climbed to 34.33 shillings and a like amount of pork, similarly treated, sells for 39.07 shillings. A gallon of rum is 1.84 shillings. You consider butter at 5 shillings a pound, but might heed the merchant's advice that the price is "excessive" and that the "buyer look elsewhere." You try to stretch your shillings because you know they are hard to come by. Common laborers make 3 shillings a day; carpenters, along with joiners and riggers of the shipbuilding trade, earn 5 shillings a day. A tailor receives 3 shillings plus room and board for making a suit, whether it takes a day or a week to do the job. A workday is 12 hours long -- with no coffee break -- and a week's work is 6 days. Another way to look at it: A skilled laborer works 3 hours to buy a gallon of molasses, 8 days and 5 hours for a 100-pound barrel of beef, 1 day and 3 hours for a pound of butter, and 6 hours for a gallon of rum. For a rough comparison, in 1976 terms, a shilling was about 25 cents and a pence, 2 cents.

(taken from Service, United States Department of Agriculture's report to consumers, February/March, 1976)
