HPER BUILDING SCHEDULE FOR HEALTH MAINTENANCE AND RECREATION. University employees and students may use facilities of the new Health, Physical Education and Recreation Building for personal health maintenance and recreation activities. A schedule for use of the building during fall semester has been established and is attached to this issue of University Notes. According to Larry Shown, facility

coordinator of the HPER Building, the schedule is subject to change and the schedule for the aquatic area will be contingent on the availability of lifeguards. In the next two weeks, a 24-hour telephone line (464-1919) will be in service and will give up-to-date schedule information on athletic, intramural, health maintenance and recreation schedules.

In addition to the daily health maintenance and recreation periods for employees, Friday nights and Saturday mornings have been reserved as a time when employees, their spouses and children may use the facilities. Students may also bring their spouses and children during these weekend periods.
